

Zambia Operational Plan Report Fy 2013 (Paperback)

By United States Department of State

Createspace, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The recent 2012 UNAIDS World AIDS Day Report showed significant improvements in HIV and AIDS-related results globally. In general, new HIV infections declined among children; there were fewer AIDS-related deaths; and there were increased investments in the response to HIV and AIDS. Zambia, like many countries, has recorded significant improvements in all three key areas. According to the report, between 2001 and 2011, Zambia reduced new HIV infections by 58 , while the country also cut AIDS-related deaths by more than 50 . The 2007 Zambia Demographic and Health Survey (2007 ZDHS) measured adult HIV prevalence at 14.3 . With the population currently standing at 13.1 million people with 61 in rural areas and 39 in urban areas, Zambia still has one of the world s most devastating HIV and AIDS epidemics, with more than one in seven adults living with HIV. Infection rates are twice as high in urban as in rural areas, while life expectancy is estimated at 49 years in what is still a generalized epidemic [UNAIDS Report on the Global AIDS Epidemic (2010)]. The HIV epidemic is geographically...
