General Accounting Office, 2003 OCLC Number: (OCoLC)53062224 Subject: Restoration ecology -- Florida. Excerpt: . . . managers - as well as its own members - with updated scientific information, the Task Force endorsed the use of a process called adaptive management, which involves the ( 1 ) development of performance indicators of the key factors causing the ecosystem to be degraded and the key ecosystem characteristics to be restored; ( 2 ) a long-term monitoring plan to track the status and trends in measures and indicators, research to help understand factors that affect measures and indicators, and assessment of monitoring and research data to determine whether restoration actions are successful; and ( 3 ) feedback so that managers will know what management changes may be needed. The SCT is the primary group responsible for coordinating agency science activities - to address information gaps and the adaptive management process. As the restoration initiative has progressed, the Task Force and participating agencies have created other groups with science coordination responsibilities, although these groups are more narrowly focused than the 7...
