

Neo Leo: The Ageless Ideas of Leonardo Da Vinci (Hardback)

Filesize: 8.09 MB

Reviews

It is straightforward in go through easier to recognize. I actually have study and that i am sure that i will going to study yet again again down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.

St Martin s Press, United States, 2009. Hardback. Condition: New. Gene Barretta (illustrator). Language: English . Brand New Book. An introduction to Leonardo da Vinci s genius focusing on his famous notebook sketches and the modern inventions they predicted. In 1781, Thomas Paine came up with a model for a single-span bridge; in 1887, Adolf Eugen Fick made the first pair of contact lenses; and in 1907, Paul Cornu built the first helicopter. But Leonardo da Vinci thought of all these ideas more than five hundred years ago! At once an artist, inventor, engineer, and scientist, da Vinci wrote and drew detailed descriptions of what would later become hang gliders, automobiles, robots, and much more. In Neo Geo, Gene Barretta cleverly shows how Leonardo s ideas--many inspired by his love of nature--foreshadowed modern inventions, offering a window into the future.
