The Anthropological Study of Class and Consciousness (Hardback)

By -

University Press of Colorado, United States, 2012. Hardback. Condition: New. Language: English . Brand New Book. Presenting prehistoric, historic, and ethnographic data from Mongolia, China, Iceland, Mexico, Brazil, and the United States, The Anthropological Study of Class and Consciousness offers a first step toward examining class as a central issue within anthropology. Contributors to this volume use the methods of historical materialism, cultural ecology, and political ecology to understand the realities of class and how they evolve. Five central ideas unify the collection: the objective basis for class in different social orders; people's understanding of class in relation to race and gender; the relation of ideologies of class to realities of class; the U.S. managerial middle-class denial of class and emphasis on meritocracy in relation to increasing economic insecurity; and personal responses to economic insecurity and their political implications. Anthropologists who want to understand the nature and dynamics of culture must also understand the nature and dynamics of class. The Anthropological Study of Class and Consciousness addresses the role of the concept of class as an analytical construct in anthropology and how it relates to culture. Although issues of social hierarchy have been studied in anthropology, class has not often been...

Reviews

An incredibly amazing ebook with perfect and lucid answers. It is written in basic terms and never difficult to understand. It's been written in an exceptionally basic way and it is only right after I finished reading this ebook in which it in fact modified me, affected the way I really believe.

-- Beverly Hoppe

Extremely helpful for all classes of individuals. Better than never, though I am quite late in starting reading this one. I realized this publication from my mom and dad suggested this ebook to discover.
