MODEL-DRIVEN DESIGN USING BUSINESS PATTERNS

Springer-Verlag Gmbh Jun 2006, 2006. Buch. Condition: Neu. Neuware - This book shows how to apply pattern ideas in business applications. It presents more than 20 structural and behavioral business patterns that use the REA (resources, events, agents) pattern as a common backbone. The developer working on business frameworks can use the patterns to derive the right abstractions and to design and ensure that the meta-rules are followed by the developers of the actual applications. The application developer can use...

Complete manual! Its such a great study. We have read through and so i am confident that i am going to going to go through once again once more down the road. It is extremely difficult to leave it before concluding, once you begin to read the book.
