Bloomsbury Publishing PLC, United Kingdom, 2004. Hardback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The subject of Wine and Words is the central role that wine plays in the literature, history and religion of classical and mediaeval Europe. It examines myths and legends about the origins of viticulture; great drinkers; women and wine; the mixing of wine and water; and ideas of old and new wine. Although the final chapter and the epilogue look at the development of methods of storage, from classical amphora to modern bottle, the book is generally arranged thematically rather than chronologically in a method based on close reading and rhetorical analysis. Wherever possible, sources are examined in their original language (mainly Greek and Latin) but English translations are supplied throughout, making this book accessible to both scholar and general reader.
