Everybody has had some kind of an experience that they relate to with CFLs. Our family is no exception. One of us hears a buzz or a flicker and blames it on the light bulb. I think its fair to say that the light is perhaps not the same quality as the incandescent bulb. They contain mercury which we all know is a hazard. Im told though that better technology exists, and while the standard light bulb that we know and love may soon be phased out, there are new products that are strikingly similar to the old ones and have the added benefit of saving electricity. So Im looking forward to hearing what our witnesses have today and the robust debate that we will have over our lighting efficiency. Thank you. The Chairman. Thank you very much. For the record at this point I would include a statement that Senator Enzi has provided. Hes the prime sponsor on S. 395. Also a letter from the Consumers Union, and a letter from the National Association of State Energy Officials. ----- See Appendix II. ----- The prepared statement of Senator Enzi follows: Prepared Statement of Michael B. Enzi, U. S. Senator From Wyoming Chairman Bingaman and Ranking Member Murkowski, thank you for allowing me to share my thoughts about S. 395, the Better Use of Light Bulbs (BULB) Act. I introduced this legislation because lighting in our homes should be about personal choice and...
