ARMY MOTOR MAINTENANCE: INSPECTION OF MOTOR VEHICLES, VOLUME II, CHAPTER 32

Bibliogov, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.Officers in command of Motor Transport companies and other organizations operating motor vehicles are responsible that all vehicles are maintained in a proper state of mechanical efficiency. In order to insure this, it is necessary that the vehicles be inspected systematically at sufficiently short intervals in order that defects may be discovered and corrected before they result in serious damage. These inspections should be made so as to interfere as little as possible with operating duties. Regular inspections, with adjustment or tightening when needed, assists in keeping the maintenance expense low and upholds the high standards of quietness, reliability, and performance built into the vehicle at the factory. Through lack of inspection a vehicle rapidly deteriorates, because minor troubles soon grow into major difficulties. Upkeep is neglected usually through the lack of inspection, failure to make minor adjustments, and improper or insufficient lubrication. The purpose of inspection of military motor vehicles is to detect deficiencies in the mechanical condition, appearance, servicing, and operation of motor vehicles, and to recommend corrective measures to prevent recurrence of such deficiencies.
