Forgotten Books, 2017. Paperback. Condition: New. Language: French . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from **Compte Rendu des Seances de la Societe de Physique Et d Histoire Naturelle de Geneve, 1913, Vol. 30** Les premiers travaux pubhes par Millikan 2 laissent subsister des doutes sur ce point. En particulier, la valeur attribuee par Millikan a la constante A de la formule de Cunningham est A basee sur l hypothese d un choc mou. Or, l exactitude de cette hypothese ne parait pas suffisamment prouvee. Nos etudes ont donc porte sur des gouttes de tres petit diametre pour lesquels les ecart de la loi de Stokes sont considerables. En meme temps, les objections soulevees par Perrin 3 contre la methode de Millikan semblent avoir une importance d autant plus petite que la vitesse de chute est plus petite et la pression capillaire plus elevee. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
