Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Selections From Erasmus: Principally From His Epistles The selections in this volume are taken mainly from the Letters of Erasmus. Latin was to him a living language; and the easy straightforwardness with which he addresses himself to what he has to say, whether in narrating the events of every-day life or in developing more serious themes, makes his works suitable reading for beginners. To the rapidity with which he in variably wrote is due a certain laxity, principally in the use of moods and tenses; and his spelling is that of the Renaissance. These matters I have brought to some extent into conformity with classical usage and in a few other ways also I have taken necessary liberties with the text. In the choice of passages I have been guided for the most part by a desire to illustrate through them English life at a period of exceptional interest in our history. There has never been wanting a succession of persons who concerned themselves to chronicle the deeds of kings and the fortunes of war; but history only becomes intelligible when we can place these exalted events in their right setting by understanding what men both small and great were doing and thinking in their private lives. To Erasmus we owe much intimate knowledge of the age in which he lived and of none of his contemporaries has he given us more vivid pictures than of the great Englishmen, Henry VIII.
