By Deva Prakash Kalita

Partridge India, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Only physics and mathematics can answer the ultimate question that can be arising, by our intelligence. The string theory slowly approaches to solve the ultimate problem, where from the creation starts? In Indian philosophy some theory are written in a very abstract way, which has an absolute similarity with modern string theory. In search of pure knowledge, it is required to define knowledge and one has to define ultimate, at least philosophically. I hope, scientific observation and imagination with mathematical calculation will define ultimate theory in this century. This responsibility was already taken by the string cosmologist, success is no longer. This book will be helpful, for imagination of ultimate, to those who born in 21th century. I hope that they will establish the law of conservation of time. A quick process to think ultimate and the whole universe, is the second part of the story. But it will take a long time. Please wait, till then, good buy.
