

HIV/AIDS Awareness: HIV/AIDS Is Not a Death Sentence (Paperback)

By Beverly Hill

Createspace Independent Publishing Platform, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. When the Human Immunodeficiency Virus (HIV); was clinically noticed in 1981, in the United States. The news of such a dreaded virus took people around the world like a thunder storm. The fear of the fact that there was no cure and no one knew the capacity of which the virus could assume a dual nature of a living and non-living thing and the reality that the virus could be passed on was very worrisome then. The initial case study was about impairment noticed in some gay men with no known reasons why they had a strange syndrome of pneumonia which was very rare at that time. What is HIV? The Human Immunodeficiency Virus is a long virus belonging to a member of the subgroup of retrovirus, which is the virus that causes HIV infection and also causes the acquisition of the corresponding immunodeficiency syndrome (AIDS). AIDS is a conditioning in human beings in which gradual failure of the immune system permits life threatening infections to thrive. If there is no treatment given to an infected person, an average survival period...
