Brand New Book ***** Print on Demand *****.Excerpt from Short Arithmetic: The Four Rules, Especially Prepared for Beginners at School and for Those Desirous of Giving Instruction at Home The present work prefers developing the capacity of the ordinary pupil by constantly appealing to his judgment, rather than to humoring his indolence by making things too easy. It clears away all difficulties, but always tries to keep his watchfulness on the alert. It attempts to teach him great principles by first enabling him to find them out for himself, and then by keeping him at their application as long as the Teacher deems necessary. It helps the teacher, too. Regularly making the Explanation a most important and unavoidable point in each lesson, it spares him endless questions and troublesome repetitions. The Pupil, forewarned as to his probable mistakes, will try to avoid them; and when he makes them, instead of waiting helplessly for aid, he will set about correcting them intelligently himself. Being also obliged to prove his work, whenever ready proof is possible, he will know, himself, when and where he is wrong,...
