iUniverse, United States, 2006. Paperback. Book Condition: New. 229 x 150 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. A Bird s Eye View of American Women describes women in a cynical, sarcastic, humorous fashion from an outside, Bird s Eye, point of view. The main focus is to bring forth novel insights about women. Numerous illustrations are included to enhance the written content. A few selections detail important issues concerning both sexes. For example, in the Office Worker title, dangerous gossipers are discussed-ones who are always hunting, gathering, and blabbering personal information amongst others. Having been involved in healthcare training, the author shares behind-the-scenes footage of healthcare staff in a hospital. The Psychopath tells the true story of an emotionally disturbed female stalker on a quest for affection. There are twenty titles to entertain readers hearts and minds. Those who have an affinity toward bathroom-type humor will surely appreciate some of the insights provided. In fact, it would be very surprising to the author and illustrator if at least a few internal smiles, if not outbursts of laughter, were not emanated. There is no other cynical humor book like this one.enjoy.
