Date :2011-09-01 version 2. Geyu Hong editor of the Physics Experiment (2nd Edition) and Xu Jianzhong is the editor of the physics (second edition) supporting experimental physics textbook issue. Experimental Physics (2nd Edition) in the brief measurement error and data processing, basic equipment, the use of physical experiments, experimental techniques and methods, etc. based on a selection of 40 on mechanical, thermal, electromagnetic, optical and experimental aspects of modern physics, is divided into basic experiment, a comprehensive experimental, design experiments, and network simulation. Each experiment included experimental purposes, prep thinking questions, test theory, experimental apparatus, experimental procedures, notes, data recording and processing, thinking problems and so on. Experimental Physics (2nd Edition) as a vocational chemicals, electronics, engineering and other professional engineering physics class experiment teaching materials, but also as a professional college, college-level engineering class television professional reference books. Contents: Chapter measurement error and measurement and data processing error 4 Section 4 Section 5 Section direct classification error of measurement error of indirect measurement of the estimated 6 Section 7 Section V the results of the calculation error of the effective number of 8 Section VI computing basic method of data processing function of the counter 12 with the data processing section VII. 15 Exercises 15 Chapter 17 physics experiments using basic equipment, basic mechanical testing equipment Section 17 Section 22 thermodynamic experiments using the first basic equipment three basic electromagnetic experiments using 24 fourth optical test equipment, basic equipment Chapter 29 Experiment 35 Experiment 1 the basic determination of solid density on the rail 35 Experiment 2 measured the gas velocity and acceleration of the slider 37 on the test track...
