SEMANTICAL RETRIEVAL OF NATURAL PHOTOGRAPHIC AND MEDICAL IMAGES

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | From a Domain Perspective | The growth of image content production and distribution over the world has exploded in recent years. This creates a compelling need for developing innovative tools for managing and retrieving images for many applications, such as web image search engines, medical decision support systems, etc. Until now, content-based image retrieval (CBIR) addresses the problem of finding images by automatically extracting low-level visual features. The main limitation of CBIR...
