One who wants to get joy of book reading especially in very less time can go for it. About The Book HIPPOLYTE ADOLPHE TAINE The Modern Rgime The early life of Hippolyte Adolphe Taine is notable for its successes and its disappointments. Born at Vouziers, in Ardennes, on April 21, 1838, he passed with great distinction through the Collge de Bourbon and the cole Normale. Until he was twenty-five he filled minor positions at Toulon, Nevers, and Poitiers; and then, hopeless of further promotion, he abandoned educational work, returned to Paris, and devoted himself to letters. During 1863-64 he produced his History of English Literature, a work which, on account of Taines uncompromising determinist views, raised a clerical storm in France. About 1871 Taine conceived the idea of his great life work, Les Origines de la France Contemporaine, in which he proposed to trace the causes and effects of the revolution of 1789. The first of the series, The Ancient Rgime, appeared in 1875; the second, The Revolution, in 1878-81-85; and the third, The Modern Rgime, in 1890-94. As a study of events arising out of the greatest drama of modern times the supremacy of the last-named is unquestioned. It stands apart as a trenchant analysis of modern France, Taines conclusions being that the Revolution, instead of establishing liberty, destroyed it. Taine died on March 5, 1893.
