By MR Ajit Kumar Roy

Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Big Data is a hot topic and getting a lot of media and business attention. Everyone is talking about big data, from the challenges to yearly spending, job creation and even the tools required for big data projects. Many believe big data will help businesses make better decisions. Big Data is the expression of this gigantic mass of information that we are constantly generating at the global level due to the tremendous amount of data generated daily from fields such as business, research, and sciences. Big Data is everywhere and represents huge opportunities to those who can use it effectively. Big Data is the result of practically everything in the world being monitored and measured; creating data faster than the available technologies can store, process or manage it. Big data is a buzzword that is ambiguous and often misunderstood. But it also feels like it could be the next big thing. Advances in sensing technologies, the digitization of commerce and communications, and the advent and growth in social media are a few of the trends which have created the...
