Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Notes and Comments on Industrial, Economic, Political and Historical Subjects The thirty chapters which compose this volume were not written that they might be gathered into a book. Some Of them were written many years ago and others in later years. References to recent events have been added whenever neces sary. As the editor of the publications of the American Iron and Steel Association during the last twenty-five years it has been my duty and pleasure to present to the readers of these publications industrial, economic, and other facts of special in terest, and to accompany them with such comments as seemed to be pertinent and necessary. The chapters which are bound up in the present volume have been selected from these edito rial contributions. In making these selections I have confined them in the main to such subjects as are likely to possess pres ent interest for students of our industrial and economic history. The few concluding chapters which do not relate to these sub jects are added because, alike with the chapters which precede them, they are relevant to that revival of interest in every phase of American history which is now everywhere so appar ent. Many chapters necessarily embody only introductory and suggestive comments on the subjects to which they relate.
