# FIBRE SATELLITE DISTRIBUTION

Alphascript Publishing. Taschenbuch. Condition: Neu. Neuware - Fibre satellite distribution is a technology that enables satellite TV signals from an antenna to be distributed using an optical fibre cable infrastructure and then converted to electrical signals for use with conventional set-top box receivers. Particularly applicable to satellite TV distribution systems in a multi-dwelling unit, such as a block of flats, such a hybrid fibre/electrical system reduces the cabling required, reduces signal noise and interference, and provides for an easy upgrade...
