*Comprehensive guide! Its this type of very good read through. It is actually writter in simple words and phrases rather than difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

## UNCLE SAM AND US: GLOBALIZATION, NEOCONSERVATISM, AND THE CANADIAN STATE

University of Toronto Press. Paperback. Book Condition: new. BRAND NEW, Uncle Sam and Us: Globalization, Neoconservatism, and the Canadian State, Stephen Clarkson, Between them, Brian Mulroney and Jean Chretien radically altered the structure and functions of the federal government, first by signing and implementing major trade liberalization projects, and then by cutting back the size of their governments' budgets and the scope of their policies. Uncle Sam and Us analyzes the Mulroney-Chretien era's impact on Canadian governance through two related factors, globalization from without and neoconservatism from within. Stephen Clarkson begins his study by conceptualizing the present Canadian state as a five-tiered, nested system stretching from the municipal and provincial levels, through the federal government, and on to the new continental and global spheres of governance: in effect, he argues, the North American Free Trade Agreement and the World Trade Organization have added a 'supraconstitution' to Canada's existing institutions. His analysis concerns the changes that have occurred not just in the federal government, but in provincial and municipal governance as well. The impact of globalization and neoconservatism is examined extensively in the second part of Clarkson's study, which examines how the functions of the Canadian state have altered. Clarkson addresses the changes in a number of policy areas such as macro and monetary policy, regulatory, industrial, and trade policy, as well as social, labour, environmental, cultural, and foreign policy. In linking external forces and internal factors in his analysis, Clarkson brings together separate aspects of the Canadian state into a comprehensive understanding of the current Canadian political climate. He combines a global knowledge of the international political economy with a micro concern for detailed analyses of policy issues, and concludes that the responsibility for Canada's predicament lies less with external forces, than with Canadians and the governments they elected. He...
