

A Treatise on Isometrical Drawing: As Applicable to Geological and Mining Plans (Classic Reprint) (Paperback)

Filesize: 7.11 MB

Reviews

A really wonderful book with lucid and perfect reasons. This can be for all who statte there was not a worth reading through. You are going to like how the author write this book.
(Dr. Grady Jacobi DDS)

A TREATISE ON ISOMETRICAL DRAWING: AS APPLICABLE TO GEOLOGICAL AND MINING PLANS (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A Treatise on Isometrical Drawing: As Applicable to Geological and Mining Plans The object of this work is, to elucidate the principles of Isometrical Projection, and to explain its application to a variety of useful purposes. In the construction of Geological Maps, and of Plans and Sections of Mines, Isometrical Drawing produces a clear and interesting delineation of the various strata, and combines many peculiar advantages which cannot be obtained by any other method. As this subject is one which is daily increasing in interest, and as the necessity of preserving accurate plans and records of mines is now generally appreciated, the Author has included several observations on this department of engineering, and has also given many practical details connected with the surveying and planning of mines, which he trusts will be found useful to those who are studying the profession. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
