ONTARIO SCHOOL GEOGRAPHY, VOL. 1 (CLASSIC REPRINT)**DOWNLOAD**

Forgotten Books. Paperback. Condition: New. This item is printed on demand. 296 pages. Dimensions: 9.0in. x 6.0in. x 0.6in. Excerpt from Ontario School Geography, Vol. 1. This book is divided into two parts. In Part I the phenomena of earth, air, and sky are described in such a way as to lay the foundation for an intelligent study of the continents as places where men live and work. Part I is entitled The Principles of Geography. In Part II the physical features and the animals and plants are described and studied in the light of the principles discussed in Part I. The knowledge thus acquired is then used in the sections of the book devoted to man and his industries, in order that the pupil may realize how physical environment affects him socially, politically, and commercially. Part II is entitled The Geography of the Continents. In this Part special emphasis has been placed upon commercial geography because of its practical value. The commercial importance and relations of the different countries are set forth with, as far as possible, the geographical reasons therefor. Toward the end of this Part, a map and sketch of the constituent parts of the British Empire have been given for convenient reference and review. The book closes with a summary of the world's commerce and industry, which will be revised from time to time as occasion may demand. Maps. The continents and the Dominion of Canada are each represented by three sets of maps - physical maps, showing the land heights and water depths; political maps, giving the latest information with regard to boundaries and the situation of places; and commerce maps, showing the distribution of the leading products, the routes of domestic trades by land and water, and the principal oceanic routes. Tables. For purposes of reference...
