## THE VALUATION OF AMERICAN TIMBERLANDS (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The Valuation of American Timberlands This book is intended to supply certain information needed by the investor, timber cruiser and student of forestry. In other words, it aims to give for the continental United States and its outlying territories the principal facts regarding the timber resources. Hawaii has been omitted because its timber is useful mainly for its protective value and cutting in the commercial sense is only possible on a very limited scale. Likewise, the Canal Zone is not attractive to either the sawmill man or timberland investor by reason of the restricted area of American territory. The investor will find data which will not only enable him to form a notion of what the examination of a tract should cost but he should also get the salient features of the general type of which his particular holdings are but a small part. This work tries to give those basic facts upon which a superstructure of detailed knowledge concerning a particular tract may safely be erected. To the estimator or timber cruiser, likewise, it cannot take the place of first-hand observation as far as the appraisal of any given area is concerned. It should, however, show him what to look for and help him to keep that sense of proportion without which his reports may easily give a wholly wrong impression. For the student of forestry it should fill an additional purpose. Few attempts have previously been made to gather together in one volume descriptions of the forest types of the United States. We have simply had detailed studies of isolated regions. With these latter as a basis, however, an attempt is here made to...
