Xlibris Corporation. Paperback. Condition: New. 278 pages. Dimensions: 8.9in. x 5.9in. x 0.7in. A Christian patriots common sense review of D. C. s political madness and nonsense, the abuse of our sacred Constitution, the degradation of our moral values and our road to recovery. The words presented in this book are an accumulation of my opinions and philosophies based on my experiences and instincts. I will warn you in advance, some opinions on both major and minor issues are going to upset many readers. I urge you to be objective, take off your blinders, form your own opinions and for goodness sake, if your opinions are that strong, write it down for posterity or for your congressman. If you cant keep an open mind and yours is already closed, then I encourage you not to read this book so we can remain friends. Many opinions are confrontational and some things said are radical and not so politically correct. These writings are not to convince you of anything but to encourage you to use your own God-given common sense and get back to decent values. However, these writings will strive to convince you of the value of the freedoms we take for granted and how those freedoms have created the greatest nation and wealth in history. If we dont get back to common sense and moral values we will lose this gift from God. The main reason I am writing my thoughts is because we are losing our country and this is my part to try to help save it. Isnt it obvious we are losing our rights of speech with the so-called Fairness Doctrine Weve lost so much of the Second Amendment with 20, 000 useless gun control laws but we can and will lose all of the rights to protect...
