Ossrea, United States, 2013. Paperback. Book Condition: New. 238 x 168 mm. Language: English . Brand New Book ***** Print on Demand *****.Most of the papers in this book were presented during the 9th International South Sudan and Sudan Studies Conference of the Sudan Studies Association USA and the Sudan Studies Society UK. 150 scholars from numerous academic disciplines, experts in conflict transformation and development, staff of non-governmental organisations (NGOs), former and current senior officers from ministries and military institutions from Sudan, South Sudan, and seventeen further countries participated in the conference. They engaged in vivid discussions on historical and recent cleavages in the societies of Sudan and South Sudan, inequality and exclusion in numerous variations, and on rapid social change accompanied by urbanisation and land conflicts. The severe economic crisis following the separation and the importance of creating political solutions instead of using technical approaches to work on the multitude of challenges affecting each of the two countries and the interrelations between them were also scrutinised. The participants intensely exchanged views and experiences on the difficulties and successes in taking responsibility rather than being dependent on foreign assistance. Discussions revealed strong potentials in both societies to overcome such problems; to initiate processes of reconciliation, and to consolidate peace. They shed light on the complex processes of nation-building and the creation of meaningful constitutions. This book attempts to capture at least some of this multitude of insights and aspects that had shaped the conference.
