The FASTtrack series provides the ultimate lecture notes and is a must-have for all pharmacy students wanting to study and test themselves for forthcoming exams. FASTtrack: Pharmaceutical Compounding and Dispensing focuses on what pharmacy students really need to know in order to pass exams, providing concise, bulleted information, key points, tips and an all-important self-assessment section which includes MCQs, case studies, sample essay questions and worked examples. Based on the successful textbook, Pharmaceutical Compounding and Dispensing, this FASTtrack book has been designed to assist the student compounder in understanding the key dosage forms encountered within extemporaneous dispensing. All the references to modern texts (for example, the BNF) have been updated for this new edition, as well as labelling to reflect changes since the publication of the first edition. Some worked examples have been changed owing to the availability of pharmaceutical ingredients. Readers are now given access to online videos demonstrating various dispensing procedures.
