

## Multisensory Math: Iimod (Interimmersion Math Oral Drills) (Paperback)

By Raul Javier Aldape

Createspace Independent Publishing Platform, United States, 2011. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Since 1993, the math activities and games in this book were researched, designed, and implemented for learners ages 8 to adult thru the perspective of a vision therapist and teacher. Lessons help stimulate student visual attention, streamline concept review, enhance recall, and empower student independent learning. All 52 math oral drills are NCTM correlated lessons in numbers operations, problem solving, measurement, data analysis probability, algebra, and geometry. Lessons apply learning principles in psychology (mnemonics), education (multiple intelligences), linguistics (Rassias Method), and visual skills training (metronome). Activities for lessons include dice games, mnemonics, hand-eye coordination exercises, oral drills, flashcards, and a metronome memory game. For cumulative review, a team building game covers all lessons.
