Brand New Book ***** Print on Demand *****.Excerpt from Public Workshops on Planning to Solve Salt Management and Containment Problems in the Western San Joaquin Valley: Response Summary The study team asked participants to comment on the alternatives currently under consideration for solving salt management and contaminant problems in the western San Joaquin Valley. Although a number of people did comment, many more indicated that they require additional information before they can react. People in all workshops asked for a better explanation of the geographical scope and severity of both the salt management and contaminant problems, how the two issues differ and how they overlap, and which alternatives would solve which problem, who would benefit, and what the environmental and economic impacts of the alternatives would be. In addition, participants asked some general questions on the alternatives and specific questions on the following topics: Selenium and other contaminants Protection of San Joaquin River water quality The problem of providing irrigation water for saline soil The feasibility of using evaporation ponds and desalinization The impact of discharge into the Pacific Ocean and San Francisco Bay/Delta...
