**PHOTO-INITIATED QUANTUM MOLECULAR DYNAMICS FARADAY DISCUSSIONS NO. 163**

Royal Society of Chemistry. Hardcover. Condition: New. 400 pages. Dimensions: 9.4in. x 6.3in. x 0.9in. Photochemistry and molecular photophysics have been highly active fields of research for more than half a century; however, during the last two decades synergistic advances in experimental technology and computational methodology have led to a renewed interest in understanding photochemistry and photophysics at the quantum level - photo-initiated quantum molecular dynamics. One of the grand challenges for the 21st century is to develop such a detailed...
