VISUAL MATHEMATICS AND CYBERLEARNING

Springer Dez 2012, 2012. Buch. Book Condition: Neu. 235x155x20 mm. Neuware - The first volume in this new Springer series explores innovative ways of learning and doing mathematics to make it more appealing to the Net Generation. This generation consists of visual learners who thrive when surrounded with new technologies and whose diverse needs can be met by a variety of cyber tools. In their search for novel ways of studying, such as collaboration with peers and multitasking by using...

Reviews

It in one of the best publication. it was writtern extremely flawlessly and valuable. I am easily could get a delight of looking at a created pdf.
-- **Mikayla Lockman**

It in a of the best ebook. It generally is not going to expense excessive. It is extremely difficult to leave it before concluding, once you begin to read the book.
-- **Ara Williamson**
