Vertical Gardening: Grow Pounds of Organic Food on Smaller Space For those that love to garden but have limited space, you can still grow fruits and vegetables by trying vertical gardening. I am going to show you how you can grow pounds of your own food in a 44 space. The great thing with vertical gardening is that it is a much more efficient and easier way of gardening compared to your standard gardening. You will learn that it is not necessary to spread your crops flat across a large area in order to grow a garden. In today s world people are becoming more in tune with healthy eating styles. Many people have turned to eating organic foods, this as you have noticed is a much more expensive food type. It is not that most of us would not prefer to eat organic foods, but when living on a budget, we must buy what we can afford For many people having organic foods is not within their budgets. Most organic foods in the stores are about twice the price as their non-organic counterparts. It is certainly a better food choice than choosing foods that are filled with harmful chemicals, but unfortunately for many organic food is not on the menu due to cost. Just imagine the money you can save by growing your own organic crops in a vertical garden. You will not have to worry about running to the grocery store when you can pick your fruits and vegetables fresh and free of harmful chemicals. You just...
