RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 82 pages. OCLC Number: (OCoLC)430078403  
Subject: Mortgage loans, Reverse -- United States. Excerpt: . . . mortgage payments and would avoid the closing costs of first obtaining a forward mortgage. As with a traditional HECM, the loan would become due when the senior died, sold the house, or permanently moved out of the house. While HECMs can provide many benefits, the up-front insurance HECM Costs Can Be premiums and origination fees of HECMs can be substantial. HUD permits Substantial borrowers to finance these costs in the mortgage. Mortgage insurance premium: FHA charges insurance premiums to cover the potential cost of paying insurance claims. FHA assesses a one-time, nonrefundable initial mortgage insurance premium equal to 2 percent of the maximum claim amount. The maximum claim amount is always higher than the amount a borrower can receive in HECM payments from the lender. However, because the HECM loan balance ( with accumulated interest and fees ) will exceed the amount a borrower receives in payments and potentially reach the maximum claim amount, FHA charges the mortgage insurance premium on the basis of the maximum claim amount. Origination fee: At the time of closing, lenders can charge an origination fee equal to the greater of 2, 500 or 2 percent of the maximum claim amount, up to 200, 000 plus 1 percent of any portion of the claim amount 9 greater than 200, 000, with the total origination fee not to exceed 6, 000. To illustrate these up-front costs, consider a HECM borrower with a home value of 300, 000. In this case, the borrower would pay ( either out of pocket or financed through the mortgage ) total up-front insurance and origination costs of 11, 000 ( 6, 000 for...
