A MODEL OF ASYMMETRIC EMPLOYER LEARNING WITH TESTABLE IMPLICATIONS

A Model of Asymmetric
Employer Learning With
Testable Implications
U.S. Bureau of Labor Statistics,
Joshua C. Pinkston

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 56 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This paper develops and tests a unique model of asymmetric employer learning. The model relaxes the informational assumptions used in most of the previous literature and assumes firms compete for workers through bidding wars. As a result, outside firms can profitably compete for an employed worker who is equally productive in any firm, despite the current employers informational advantage. The model...
