

Random Body Parts (Hardback)

Filesize: 2.89 MB

Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.

(Prof. Loyce Runolfsson Jr.)

Peachtree Publishers, United States, 2015. Hardback. Condition: New. Mike Lowery (illustrator). Language: English . Brand New Book. Witty and nimble verse about body parts pairs with whimsical drawings in this informative, fun collection. It begins with an invitation to solve a series of poetic riddles: Of course you have a body, / But do you have a clue / Where all the body parts you ve got are found / And what they do? Each poem that follows poses a puzzle in verse (with a sly wink and a nod to Shakespeare) and provides hints for uncovering the body part in question. Sidebars further educate readers about the anatomical subject in question, while appended notes offer a crash course on poetic form and a few facts about the Shakespearean works that inspired the verses. Captivating lines such as rumble, grumble, roil and rumble, / Acid burn and slurry tumble (from the poem that refers to the stomach) should spark readers interest in poetry and human biology alike. A glossary for science terms is included in the back matter.
