THE STROKES: THE FIRST TEN YEARS (PAPERBACK)

Lesser Gods, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book. The recollections in The First Ten Years are so personal and intimate that you feel like you're being let into one of the band's old basement hangs at 2A. . . . This is a peerless window into the group through the lens of a close friend who was there before it even began. Handsomely housed in an exceptional package that combines premium art paper for the photography and a textured stock for the text sections, including a special dust jacket design, the book features hundreds of color and black and white images of the band in public and in private. A truly personal look at the rise of this singular band, which is still relevant and a top draw worldwide. My friend Cody has photographed The Strokes since the very beginning and has built a...
