## THE BOUNDS OF COGNITION (PAPERBACK)

John Wiley and Sons Ltd, United Kingdom, 2010. Paperback. Condition: New. Language: English . Brand New Book. An alarming number of philosophers and cognitive scientists have argued that mind extends beyond the brain and body. This book evaluates these arguments and suggests that, typically, it does not. A timely and relevant study that exposes the need to develop a more sophisticated theory of cognition, while pointing to a bold new direction in exploring the nature of cognition Articulates and defends the mark of the cognitive , a common sense theory used to distinguish between cognitive and non-cognitive processes Challenges the current popularity of extended cognition theory through critical analysis and by pointing out fallacies and shortcoming in the literature Stimulates discussions that will advance debate about the nature of cognition in the cognitive sciences.
