

The Socio-Economic Transformation: Getting Closer to What?

By Owsinski, Jan W. Professor (Editor)

Palgrave Macmillan, UK, 2007. Hardcover. Condition: New. First Edition. 168 pages. Available Now. Book Description: Transition economies offer a test case for concepts and theories, for broader ideas and for the methods of scientific enquiry, but also for the multiplicity of ideological interpretations. Designing the strategies for the transition processes and testing the theories relative to economic, social and political change constitute an unprecedented challenge to intellectual capacity of the scientific community. This volume brings together a team of leading international economists to address the major issues of transformation, institutional design, the redistribution paradigm and the macroeconomic decisions to be made. : About the Author: ZBIGNIEW NAHORSKI is the Dean of the Computer Science Department, Warsaw School of Information Technology and the Editor-in-Chief of the journal Control and Cybernetics. He co-manages the EURO Working Group MODEST. He is the author of over 150 scholarly papers and four books, as well as the editor of 25 books or special issues of technical journals.: JAN W. OWSINSKI is author of more than 150 scientific papers and editor of more than 20 volumes. He works mainly in data analysis methods and their applications in economics and business, as well as in other fields,...

Reviews

Extensive information for book fans. It is written in basic words and never hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.
