TREATMENT OF INDUSTRIAL EFFLUENT BY ADSORBENTS

M. D. Fazlur Rahman
Treatment of Industrial
Effluent by Adsorbents

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Adsorbents have been developed to find an economic and efficient way to treat the textile wastewater. Adsorption is mainly used method in physicochemical wastewater treatment, which can merge the wastewater and the porous material powder or granules, such as activated carbon and clay, or allow the wastewater through its filter bed composed of granular materials. Through this process effluents in the wastewater are adsorbed and removed on the surface of the porous...
