Theo Hantea, United States, 2015. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.You will find all the necessary information for teaching babies age 0 to 3 years old how to swim and dive. To keep things funny, the author called the characters Guppy, referring to all species of responsible adults, and Boo, referring to the little precious one. This book will help you to create a wonderful swimming experience for your infant or toddler. You will start in your own comfort, using the bathtub to teach Boo how to develop a contact with the water. The aim is to transform a scary experience like bath-time into special time for you both to enjoy. After Boo will become relaxed in water, you will be ready to take the action to the swimming pool, for your baby s first swim. With each exercise you will be practising, Boo will learn how to swim underwater (yes, it s possible!) and climb out of the pool alone, which is very important for safety. The 42 engaging exercises are all followed by illustrations showing you different correct positions you need to experiment while holding Boo during the swimming activities. The book is written in an entertaining and clear style. The author is a personal swimming instructor with +15 years experience in delivering lessons on the basics of being safe while in water and swimming correctly and efficiently. The author wants to offer you happy swimming memories and wishes the book to become your magical reading time after time. Happy Swimming Memories is the only book that gives you long lasting memories on your baby s first swim! The author gives you the option to have the entire book personalized with the baby and adult...
