Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, after the way I believe.

Pursuant to a congressional request, GAO reviewed the Department of Veterans Affairs (VA) efforts to prevent, detect, and recover compensation and pension overpayments. GAO found that: (1) in 1994, VA detected about 372 million in overpayments to its beneficiaries mainly due to changes in income, particularly changes related to social security benefits; (2) although VA recovers about 30 percent of its overpayments, its outstanding overpayment balance was about 618 million in 1994; (3) many beneficiaries do not have the resources to repay the overpayments; (4) although VA has the capability to prevent many overpayments, it has not focused on overpayment prevention; (5) VA needs to better coordinate its beneficiary information with that of the Social Security Administration; and (6) VA does not systematically collect, analyze, and use information on the specific causes of overpayments to target its preventive efforts. This item ships from La Vergne, TN. Paperback.
