Body Constitution, Temperament and Health What about the Mind

By Shahid Akbar M. D. Ph. D.

Trafford Publishing. Hardcover. Book Condition: New. Hardcover. 184 pages. Dimensions: 8.5in. x 5.5in. x 0.6in. Health means the existence of harmony and synergy among physical, mental, and spiritual aspects of life, and not simply an absence of disease. Our body is a complete unit, a microcosm, but also a tiny part of the universe surrounding it, the macrocosm. Its vitality, functions, movements, and survival are dependent and affected by the environment we live in. The topic of mind, body, and health has been a subject of discussion and the motivation behind a number of books written in the past few decades. The origin of this philosophy can be traced to thousands of years in many ancient cultures. Knowing how different components of a computer work or how a combustion engine makes the car move forward are not necessary to use a computer or drive a car. However, having basic knowledge about them makes it easier to understand and use these devices effectively. Similarly, knowing about the basic functioning of ones body, both in light of ancient philosophies and in context of modern science, can help better understand the concepts of causes of ill health and the means for protection. In light...

Reviews

Very useful to all of category of people. I actually have read through and that i am sure that i will likely to go through once more again in the foreseeable future. I realized this book from my i and dad advised this publication to find out.
